Over the framework of knowledge

SMART Implementation of IWRM / Future IWRM in Asia-Pacific

-What we endeavor to promote IWRM by focusing on river basin level-

Mr. Koichiro Omoto
Secretariat
Network of Asian River Basin Organizations (NARBO)
10th June, 2015
Contents

• Summary of Regional session on IWRM
  - Outline/ Key message/ ” IWRM indicator”

• Future Orientation on IWRM
  - linkage to the messages of Thematic process session
Regional Session on IWRM

- Date & Venue: 11:20-19:00 on 13 April, 2015 in Gyeongju
- Session convener: Arab, MENBO & NARBO (with GWP, ESCAP & UNESCO)
- Inter-regional session with Arab and Mediterranean
- Approximately 70 participants joined.
- H.E. Dr. Basuki Hadimoesumo, Minister of Public Works and Housing, Indonesia delivered Keynote Speech.
Key Messages on IWRM

1. Re-affirm that IWRM is an adaptive management process that adopts an inclusive approach bringing stakeholders together to increase water security and improve water governance.

2. Re-acknowledge that the Asia-Pacific region has ample experience and knowledge and innovative technology on IWRM to be shared.

3. Endeavor to make more opportunities of sharing experience and knowledge and enhance networking in the region to bridge the gaps in a smart way.
4. Contribute to achieve international goals and target such as Sustainable Development Goals (SDGs) on water and IWRM and resolve to take follow-up actions.

5. Endeavour to improve our engagement with donors, UN-agencies, civil society, private sector, decision-makers and with actors outside the water sector to ensure that water is integrated into key socio-economic development decisions.
## Regional Session on IWRM

### Launch of NARBO’s IWRM Indicator

Future Orientation on IWRM

- Endeavour and contribute to the listed messages with consideration for following points (→ synergize thematic process session on IWRM)

  e.g

  1. Document and demonstrate the Best Practice

  2. Develop networking among organizations in a smart way to be able to get knowledge on IWRM easily

  3. Develop and accumulate the knowledge by using and developing tool such as “IWRM indicator”
Thank you!
