

IYS Follow-up Conference
Japan, 26-27 January 2010

Session Introduction

Amy S.P. Leung

Chair, Water Committee

Director, East Asia Urban and Social Sectors Division

Asian Development Bank

ADB

Focus Question:

How do we select the most
appropriate technology suited to
local conditions?

Session 2:

Optimizing sanitation technology

ADB

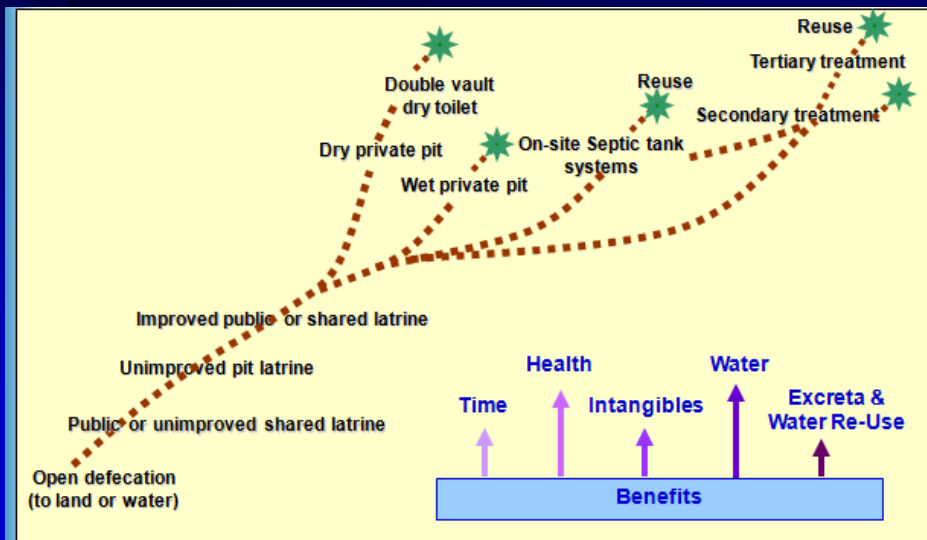

Session Objectives

- Discuss ways to address major issues and challenges
- Showcase projects that demonstrate innovative technologies and good practices

Hurdles

Financing and technology transfer	Community awareness and participation
Political perspectives	Private sector participation
Conservation and recycling	Climate Change
Innovation	Knowledge

Moving Up the Sanitation Ladder

Challenges

- Sustainable development from 'toilets' to 'rivers'
- Twinning of hardware (infrastructure) and software (hygienic behaviour) interventions
- Opportunities for collaboration and networking
