Japan Water Forum

Singapore International Water Week 2008

Japan Pavilion & Japan Biz Forum

The inaugural Singapore International Water Week (SIWW2008) will be held from 23 to 27 June 2008. It will bring policymakers, industry leaders, experts and practitioners together to address challenges, showcase technologies, discover opportunities and celebrate achievements in the water world.

During the SIWW2008, the Japan Water Forum will organize a Japan Pavilion at the Water Expo as well as a Japan Biz Forum. We aim to address water issues and create new business opportunities, by providing information on proven and cutting-edge technologies from Japanese corporations, services and best practices, to the actors in the water business marketplace, through the Japan Pavilion and Japan Biz Forum.
