

Asian Water Development Outlook 2011

Progress Update

9th APWF Governing Council Meeting

PUB Water Hub, Singapore, 8 July 2011

Guiding Vision

“Societies can enjoy water security when they successfully manage their water resources and services to:

1. Satisfy **household** water and sanitation needs in all communities
2. Support productive **economies** in agriculture and industry
3. Develop vibrant, livable **cities** and towns
4. Restore healthy **rivers and ecosystems**
5. Build **resilient communities** that can adapt to change.”

AWDO Team

AWDO Team

Satisfying household needs	ESCAP + WHO, UNICEF
Supporting productive economies	IWMI + FAO
Managing vibrant cities	IWC + PUB
Restoring healthy rivers	IWC
Building resilient communities	ICHARM + ICIMOD
Case studies Japan & NARBO	ADB Institute
Anchors in ADB	7 senior ADB staff
Lead chapter	Ramesh Vaidya
Co-chairing team and process	Wouter and Ravi Narayanan
Subregional lens and resonance	Regional advisers*

* Central-West Asia, East Asia, South Asia, Southeast Asia, and Pacific

Progress Update

- Preparation involved 10 knowledge partners
- Launch expected by end 2011 to inform leaders for 2nd Asia-Pacific Water Summit in Feb 2012
- Editing and peer review process now ongoing
- AWDO's 5 key dimensions of water security were adopted as focal areas for the 2nd APWS
- Asia-Pacific Center for Water Security was established at Tsinghua University, Beijing, to facilitate further AWDO work after 2011
